To our Valued ILSCO Distributor Partners,

ILSCO has worked diligently to mitigate the effect of escalating costs in raw materials, freight, healthcare, and other operational increases. Despite our best cost-controlling efforts, these inflationary factors necessitate a price adjustment. Therefore, effective April 15, 2019, ILSCO is announcing a price increase ranging from 3-6% on a majority of our product offering.

ILSCO would like to request that you contact your Rep Agency directly to indicate that you are interested in an electronic pricing file. The Rep Agency will coordinate the request with ILSCO on your behalf. Pricing will also be available through IDW and Trade Service at that time.

ILSCO appreciates your continued support.

Kurt Wintersberger
Vice President of Distribution Sales
