

Dear Klein Tools Distributor:

June 3, 2019

On May 10th, 2019 the U.S. federal government increased existing tariffs on select Chinese imports from ten percent to twenty five percent. This adjustment impacts some Klein Tools products*. Therefore, Klein Tools will update its price list effective June 10th, 2019 with adjustments targeted to products effected by the increased tariff percentage. These pricing adjustments are outside of company control and reflect additional costs made by the tariffs as a result of government mandated policy.

Updated 2019 prices will be available electronically beginning June 10th, 2019.

We appreciate your continued support of Klein Tools and look forward to growing our businesses together. Klein Tools District Managers and Representative Agencies are your key contacts with Klein Tools. They stand ready and able to help you profitably grow your Klein Tools business. Please contact them with any questions you may have on any Klein Tools issues.

Thank you for your business and your loyalty to Klein Tools. The Klein family of employees, managers and owners greatly appreciate your support.

Sincerely,

John J. McDevitt
Executive Vice President – Sales & Marketing

***Supporting documentation provides an item-level list of affected products.**

Klein Tools products with Harmonized Tariff Schedule Codes listed below will be impacted:
