July 2, 2019

Dear Valued Customer:

I am sure that you are aware of the recent changes in U.S. trade policy, the addition of tariffs, which invariably affect the cost of various materials manufactured in certain countries. Kidde has been covering the cost of these tariffs for the last year, working diligently to find alternatives internally, rather than passing along these fees to you.

Recently, however, these tariffs have increased significantly (up to 25 percent on materials from China) causing a much larger impact across our product lines. Consequently, Kidde will be implementing a price increase that will help offset these additional input costs.

This increase will take effect on August 1, 2019, and will be an average 2.5% increase on our small analog/addressable systems product lines. A detail of the specific changes is attached to this letter.

We thank you for your continued support of our brand and our products.

Sincerely,

A handwritten signature in black ink, appearing to read "Pam Hoppel". The signature is fluid and cursive, with a large initial "P" and "H".

Pam Hoppel
General Manager & Executive Director
