

# HANGER SOLUTIONS PROTECTIVE SHIELDS

As our government has introduced measures to protect the public from **COVID-19**, many retailers are taking additional precautions to protect employees and customers by installing suspended protective shields in stores. These are installed at check-out locations and offer a transparent screen between the cashier and the customer. GripplE suspension systems are quick and easy to install in all retail environments and represent an ideal solution for this application.

## BENEFITS

- Easy attachment to all common retail environment ceiling structures – including ceiling grids
- Quick and easy to retrofit to pre-existing ceilings and structures
- Adjustable, depending on required drop length
- Discreet - does not detract from POS or product displays

## OUR SOLUTIONS

Supplied in easy to install, retrofit kits containing a 1/8" thick protective shield (2'x3') pre-cut length of cable with pre-attached end fixing, and a GripplE Express fastener.

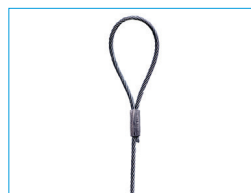

Hanger kits available for use with glass, acrylic or many other types of protective shields.

### FASTENER

EXPRESS NO. 2  
SWL: 100 lbs.

### END FIXING

Loop
